

Ryan Richard Ruff, PhD, MPH, MPhil

CONTACT INFORMATION	433 First Avenue, Room 712 Department of Epidemiology & Health Promotion New York University College of Dentistry	<i>Voice:</i> (212) 998-9663 <i>E-mail:</i> ryan.ruff@nyu.edu <i>Web:</i> www.ryanruff.com
RESEARCH INTERESTS	School-based health programs, specifically their sustainability, effectiveness, and impacts on educational performance; etiology of treatment nonresponse; machine learning applications in dental medicine; oral health and child development; longitudinal analysis of oral health data.	
EDUCATION	University of Virginia , Charlottesville, VA USA PhD in Research, Statistics, & Evaluation, December 2009 BAMT in Education, May 2005 Harvard University , Cambridge, MA USA MPH in Epidemiology, May 2017 Cambridge University , Cambridge, UK MPhil in Education, July 2010	
HONORS AND AWARDS	2021 Sigma Xi Scientific Honor Society 2021 Elected Fellow, New York Academy of Medicine 2020 Goddard Junior Faculty Fellowship 2020 Dean's Honor, NYU College of Dentistry (2020, 2018, and 2017) 2019 Selected as one of top five papers published in 2018 in BMC Oral Health 2018 Delta Omega Honor Society, New York University 2018 NYU Faculty Honoree, New York University 2017 Elected to Academy of Distinguished Educators, NYU College of Dentistry 2012 Distinguished Service Award, NYC Department of Health 2008 DuPont Fellow, University of Virginia 2007 Doctoral Fellowship, University of Virginia (2007 and 2006)	
ACADEMIC EXPERIENCE	New York University College of Dentistry , New York, NY <i>Associate Professor (tenure track)</i> <ul style="list-style-type: none">• Director, Oral Health, Epidemiology, and Analytics Lab, 2020 - Pres• Director, Biostatistics Core, 2017 - Pres• Director, MS Program in Clinical Research, 2017 - Pres <i>Assistant Professor (tenure track)</i> <i>Research Assistant Professor</i> <ul style="list-style-type: none">• Statistics Unit Head, 2015-2017 New York University School of Global Public Health , New York, NY <i>Associated Professor</i>	2019 - Pres 2017 - 2019 2014 - 2017 2014 - Pres

	<i>Adjunct Associate Professor</i>	2012 - 2014
	Uniformed Services University of the Health Sciences	
	<i>Adjunct Associate Professor</i>	2022 - Pres
PROFESSIONAL EXPERIENCE	Columbia University, Epidemiology & Population Health Institute , New York, NY	
	<i>Instructor</i>	2012 - 2021
	New York City Department of Health , New York, NY	
	<i>Director, Research & Evaluation Unit</i>	2011 - 2014
	New York City Department of Education , New York, NY	
	<i>Director of Research & Evaluation</i>	2010 - 2011
RESEARCH EXPERIENCE	Funded Research - As Principal Investigator	
	2022 - 2024 JSI22-1529, JSI Research & Training Institute and US Department of Health & Human Services, "Sustainability of a school-based caries prevention program" \$300,000.	
	2022 - 2023 JSI22-1529, US Department of Health & Human Services, "Situation analysis, planning and proposal for a statewide school-based cavity prevention program" \$50,000 (MPI)	
	2020 - 2022 #R56 DE028933, National Institute of Dental and Craniofacial Research, "The role of the oral microbiome in disparities in dental caries and responsiveness to caries prevention." \$517,296	
	2019 - 2020 #RA633, New York University Mega Grant Support Initiative, "The role of the oral microbiome in disparities in dental caries and responsiveness to caries prevention: A pilot study." \$15,000	
	2018 - 2024 #PCS160936724, Patient Centered Outcomes Research Institute, "Comparative effectiveness of school-based caries prevention for children: A cluster randomized pragmatic clinical trial." \$13,352,988 (MPI)	
	2017 - 2023 #R01 MD011526, National Institute on Minority Health and Health Disparities, "Statewide implementation and evaluation of a rural caries prevention program." \$3,617,644 (MPI)	
	2016 - 2018 #R03 DE025289, National Institute of Dental and Craniofacial Research, "Analysis of longitudinal data from a school-based caries prevention program." \$317,000	
	As co-investigator or other role	
	2015 - 2016 #R01 DE018729, National Institute of Dental and Craniofacial Research, "Quality of life in children with cleft." \$3,231,498 (Hillary Broder PI)	

- 2014 - 2015 #U24 MD006964, National Institute on Minority Health and Health Disparities, “Effectiveness and improvement of rural, school-based, caries prevention programs.” \$7,100,000 (Richard Niederman PI)
- 2013 - 2014 NYU Community and Translational Science Institute, “Understanding obesity among public housing residents in NYC: A community-based geospatial project.” \$35,000 (Dustin Duncan PI)
- 2013 - 2014 #71637, Robert Wood Johnson Foundation, “Assessing the impact of food restrictions under the Supplemental Nutrition Assistance Program on food choice by families.” \$170,000 (Chen Zhen PI)

Other research funding

- 2018 New Hampshire Women, Infants, and Children Pay for Prevention Program. Served as epidemiologist/biostatistician for program evaluation and reporting (\$9,125)
- 2017 New York City Department of Health and Mental Hygiene. Subject-matter expert regarding oral health data registry and survey system development (\$40,000)

Grants under review

- Submitted A sustainable model for school-based caries prevention in rural neighborhoods, National Institute of Minority Health and Health Disparities (R01)
- Submitted Comparative effectiveness of school-based oral health programs and the impact on child development, National Institute of Dental and Craniofacial Research (R01)
- Submitted Optimization of school-based caries prevention programs: the CariedAway oral health collaborative, National Institute of Dental and Craniofacial Research (R01)

Ruff RR. Average school performance following the introduction of a school-based caries prevention

program: An interrupted time-series analysis approach.

INVITED TALKS

- Jun 2023 Novel strategies for school-based preventive medicine: Lessons from the *CariedAway* pragmatic clinical trial. Invited speaker for the upcoming 29th Congress of the International Association of Paediatric Dentistry. Maastricht, the Netherlands.
- Sep 2022 Research and development in school-based health. Invited lecture given to the Medicine Grand Rounds speaker series, Vanderbilt University Medical Center, Division of Epidemiology. Nashville, TN, USA.

ORAL PRESENTATIONS AND SYMPOSIA

- Nov 2022 Building Sustainable, Effective School-Based Oral Health Programs. Oral Symposium, three abstracts accepted as senior author, one as first author titled “School-based caries prevention with minimally invasive treatments: Results from phase one of the CariedAway cluster randomized pragmatic trial”. Presented at the 2022 American Public Health Association Meeting, Boston, USA
- June 2021 Applications of machine learning in oral health: predicting treatment nonresponse in children receiving nonsurgical caries prevention. 9th International Conference on Methodological Issues in Oral Health Research, New York, USA
- Sep 2019 Measuring responsiveness to preventative treatments for dental caries: Towards a predictive model using machine learning (Ruff RR, Saxena D). Oral presentation given at the CED-IADR Oral Health Research Congress, Madrid, Spain
- June 2018 Applications of virtual reality in training oral and maxillofacial surgery techniques (Ruff RR). NYU Academy of Distinguished Educators teaching and learning club, New York, USA
- May 2018 Research to optimize school-based caries prevention (Ruff RR). Oral presentation given at the 8th International Conference on Methodological Issues in Oral Health Research, Hong Kong
- Oct 2017 Assessing additional options for school-based caries prevention (“Improving determinants of child development” Symposium). Presented at the IADR World Congress on Preventive Dentistry, New Delhi, India

SELECTED ABSTRACTS

- July 2021 Silver diamine fluoride, dental caries, and quality of life in low-income minority children: Results from the CariedAway school-based cluster randomized trial. IADR/AADR General Session
- Oct 2018 Should dental insurers implement comprehensive school-based caries prevention programs? (Huang S, Ruff RR, Niederman R). 41st Annual Meeting of the Society for Medical Decision Making
- Apr 2018 Development and validation of the Child Oral Health Impact Profile Preschool Version (Broder HL, Sischo L, Ruff RR, et al). 75th Meeting of the American Cleft Palate Craniofacial Association
- Apr 2017 Analysis of school-based caries prevention programs (Ruff RR). New York University Faculty Research Symposium, New York, USA

Mar 2017	Patient-centered outcomes in periodontitis patients (Rego R, Russell S, Burukunte S, Ruff RR, et al). 95th General Session of the IADR, California, USA
Mar 2017	CariedAway: Outcomes of school-based caries prevention (Ruff RR, Niederman R). 95th General Session of the IADR, California, USA
Mar 2017	SDF for Caries Prevention in Primary Teeth: A systematic review (Oliveira B, Rajendra A, Keenan A, Ruff RR, Niederman R). 95th General Session of the IADR, California, USA
Feb 2015	Spatial stigma and drug use among low-income housing residents in NYC (Ruff RR, Duncan DT). New York City Epidemiology Forum, New York, NY
Sep 2014	Estimating the effects of sugar-sweetened beverage taxes on weight and obesity in NYC (Ruff RR, Zhen C). American College of Epidemiology annual meeting, Maryland, USA
Feb 2014	Dietary sources of sugar and drink-specific calorie intake in New York City Adults (Adjoian T, Ruff RR, Akhund A). New York City Epidemiology Forum

SERVICE & COMMITTEE ACTIVITIES

New York University

2021-Pres	University Graduate Program Committee
Spring 2018	College faculty representative, NYU Faculty Urban Research Day
2014-2016	Teaching fellow, Center for the Promotion of Research Involving Innovative Statistical Methodology (PRIISM)

College

2019-Pres	Faculty Council
2016-Pres	Director, MS Program in Clinical Research
2016-Pres	Director, Biostatistics Core
2017-Pres	Member, NYU Academy of Distinguished Educators
2018-2022	Member, Curriculum Committee
2016-Pres	Member, Graduate Council on Ethics and Professionalism
2016-2019	Member, Council on Humanitarianism and Culture Change
2017-2018	Mentor, Summer D1 Research Experience
2014-2015	Teaching and Learning Club
2014-2015	Statistics Unit Head, College of Dentistry and School of Nursing
2014-2016	Technology Enhanced Learning Committee (NYU SGPH)

Department

Fall 2022	Chair, Faculty Search Committee (tenure track)
-----------	--

Fall 2022	Chair, Faculty Search Committee (research track)
2020-Pres	Chair, Oral Health Epidemiology and Analysis Lab
Fall 2021	Faculty Search Committee
2019-2020	Planning Committee, 2020 Methodology in Oral Health Research Conference
Spring 2017	Faculty Search Committee
2015-2016	Chair, Curriculum Committee, MS Program in Clinical Research
2015-2016	Admissions Committee
2014-2015	Curriculum Committee

Other

2011-2014	Surveillance and Epidemiology Unit, NYC Incident Command System
2010-2011	Member, NYC Department of Education Institutional Review Board

Community & Professional Service

2022	Study Section, National Institute of Dental and Craniofacial Research. Review panel for Oral Health Data Analysis and Statistical Methodology Development and Analyses of Existing Genomics Data applications.
2022	Study Section, National Institute of Dental and Craniofacial Research. Special Grants Review Committee (DSR).
2021	Study Section, National Institutes of Health. Oral, Dental, and Craniofacial Sciences (ODCS). Musculoskeletal, Oral, and Skin Sciences IRG.
2017	Grant Reviewer, Oral Disease and Dental Health Review Committee, California Tobacco-Related Research Program (TRDRP). Content expert for oral disease epidemiology and biostatistics.
2014	Consulting, Fiji National University, for the 2014 Fijian Oral Health Survey. Sampling procedures, data management and analysis, and reporting for government release.

ADVISING

Thesis or capstone supervisor

Analyzing the impact of prevention on new dental caries over time in schoolchildren with preexisting untreated decay: The Forsyth Study (Kajal Desai, MPH thesis - 2019)

The comparative performance and appropriateness of caries indices for use in oral epidemiology research: a prospective cohort example (Dhawani Shah, MPH thesis - 2019)

Intermittent fasting and oral health (Jillian Bateson, Furman University Undergraduate Capstone Project, 2019 - later admitted to dental school)

Factors related to periodontitis prevalence and dental care utilization in US Hispanic women with changes in progesterone and estrogen levels (Ifrah Choudhary, MPH thesis - 2017)

Periodontitis and the risk of psoriasis in the US population using the National Health and Nutrition Examination Survey, 2009-2012 (Zhen Li, Master of Science capstone in Clinical Research - 2016)

Public health interventions for obesity in New York City (M. Seamans, H RTP Internship, NYC Department of Health and Mental Hygiene, 2013).

Mentoring

Tamarinda J. Barry-Godin, DMD, MPH. Worked under my supervision as a post-doctoral associate on a PCORI-funded project. Later pursued DrPH at the Johns Hopkins University Bloomberg School of Public Health and joined department as Research Assistant Professor.

Rachel Whittemore, MPH. Worked under my supervision as clinical research coordinator, later pursued MPH in Sustainable Development and a certificate in data science.

Rashmi Shrestha, MS. Former student enrolled in the MS program in Clinical Research, later serving as adjunct lecturer under my supervision in the same program. Went on to enroll in the DrPH program at the NYU Global School of Public Health.

TEACHING &
EDUCATIONAL
ACTIVITIES

Courses Taught

Epidemiology (MS), 1 semester

Scientific Writing (MS), 1 semester

Epidemiology of Dental Caries (DDS, "Diagnosis and Treatment of Oral Disease" course), 3 semesters

Biostatistics for Public Health (MPH/PhD/DDS), 12 semesters

Data Management using SAS I (MS), 3 semesters

Data Management using SAS II (MS), 3 semesters

Clinical Research Practicum I (MS), 3 semesters

Clinical Research Practicum II (MS), 3 semesters

Biostatistics I (MPH/PhD), 2 semesters

Biostatistics II (MPH/PhD), 2 semesters

Propensity Score Matching (Post-graduate), 6 summer sessions

Methods of Causal Inference (Post-graduate), 2 summer sessions

Survey Research (Post-graduate, co-taught), 1 summer sessions

Qualitative Data Analysis (PhD), 1 semester

Educational Materials Developed

MS Program in Clinical Research, 2016

In 2016 I was asked to assume the role of Director of the MS Program in Clinical Research in the department of Epidemiology and Health Promotion. In so doing, I evaluated and revised the program curriculum, moving from 50 credits to 30, updated all syllabi for new competencies and state requirements, and successfully applied for state approval. I am responsible for reviewing and admitting outstanding applicants and developing new educational materials each year including advertising and new program options, such as a dual MS/MS with Biomaterials and a joint BS/MS with the NYU College of Arts and Sciences.

Biostatistics for Public Health, 2014

In collaboration with the NYU Global Technology Service and the College of Global Public Health, I created a fully-online course in Biostatistics to be offered to students at CGPH, the College of Dentistry, and the School of Medicine. This project required creating a new syllabus, all educational materials (including lessons, datasets, problem sets, and lab sheets), writing lecture scripts, and recording professional-quality videos for use in the online classroom.

Data Management II, 2014

For Data Management II, I created a new syllabus with updated competencies and focused the core course on a set of skills necessary for students pursuing careers in Clinical Research. Development for this course included a new syllabus, writing new SAS code for every course module, and creating problem sets/projects for student assessment.

Propensity Score Matching, 2012

The PSM course is a fully online course using the Canvas Instructure framework. It is a five-module course on the theory and practice of causal inference and propensity scores to analyze epidemiologic data. Development included syllabus, lessons, lecture videos, datasets, laboratory problem sets, and worksheets.

Causal Inference, 2011

As part of the Columbia Epidemiology & Population Health Institute, I developed a 5-day, 30-hour course in Causal Inference methods. Modules for this course included theories of causal inference, difference in difference methodology, regression discontinuity designs, propensity score analysis, and instrumental variables. Development included syllabus, lessons, datasets, problem sets, and assignments.

MEMBERSHIP IN PROFESSIONAL ORGANIZATIONS

- Fellow, American College of Epidemiology
- Member, American Public Health Association
- Fellow, New York Academy of Medicine
- Member, Cochrane Collaboration
- Fellow, Royal Society of Medicine
- Member, New York Academy of Sciences
- Fellow, Royal Society of Public Health
- Member, International Association of Dental Research
- Member, American Dental Education Association

SOFTWARE

- Statistical Packages: R, Stata, LISREL, AMOS, BUGS; SAS (rusty), SPSS.
- Applications: EpiMouth (built in R Shiny), L^AT_EX, R-Markdown, REDCap, N'Vivo, EndNote, JMP, common Windows database, spreadsheet, and presentation software
- Erdős number: 4
